

Porsche examines Macan S and Macan Turbo vehicles

Possible leak in low-pressure line – affected customers will be contacted directly

Atlanta, Georgia. Voluntary safety recall: Porsche is conducting an examination of 58,881 Macan S and Macan Turbo vehicles around the world, of which 21,835 are in the United States and 3,490 are in Canada. The reason for this move is a possible leak in the low-pressure fuel line inside the engine compartment. The line will be replaced in the workshop. This is a purely precautionary measure, as there have been no reports of accidents or injuries as a result of this concern.

The problem was identified after a precise examination of complaints and then immediately rectified in ongoing production. Owners of the vehicles will be contacted directly and workshop appointments will be arranged as quickly as possible. The work will take approximately one hour and will be carried out free of charge.

###

About Porsche Cars North America, Inc. | One Porsche Drive, Atlanta, GA 30354 USA

Established in 1984, Porsche Cars North America, Inc. (PCNA) is the exclusive U.S. importer of Porsche 918 Spyder, 911, Boxster and Cayman sports cars, the Macan and Cayenne SUVs, and Panamera sports sedans. Headquartered in Atlanta, Georgia since 1998, PCNA is also home to the first Porsche Experience Center in North America featuring a module-based 1.6 mile driver development track, business center, human performance center, and fine dining restaurant. PCNA employs approximately 300 people who provide parts, service, marketing, and training for 186 dealers. They, in turn, work to provide Porsche customers with a best-in-class experience that is in keeping with the brand's 65-plus year history and leadership in the advancement of vehicle performance, safety and efficiency. PCNA is a wholly-owned subsidiary of Porsche AG, which is headquartered in Stuttgart, Germany.

At the core of this success is Porsche's proud racing heritage that boasts some 30,000-plus motorsport wins to date.
